Project Title	Funding	Institution
Parent-based sleep education program for children with autism spectrum disorders	$0	Vanderbilt University
Exploration of resting-state network dynamics in autism spectrum disorders	$0	Harvard University
Using robotics to promote social cognitive skills in the inclusive classroom	$0	Anthrotronix, Inc.
Utility of social robots for promoting joint attention in infants and toddlers with disabilities	$0	Orelena Hawks Puckett Institute
Identifying socially-based reinforcers for young children with ASD	$10,000	University of Miami
Teaching children with ASD to tell socially appropriate "white lies"	$18,078	Center for Autism and Related Disorders (CARD)
HCC-Medium: Personalized socially-assistive human-robot interaction: Applications to autism spectrum disorder	$19,420	University of Southern California
Increasing variability of verbal initiations through the responses of conversation patterns	$20,000	Texas Christian University
Leadership Education in Neurodevelopmental Disabilities	$26,000	University of Pennsylvania
Effects of active motor & social training on developmental trajectories in infants at high risk for ASD	$40,000	Kennedy Krieger Institute
Desensitization techniques for difficult behaviors	$50,000	Southwest Autism Research & Resource Center (SARRC)
A non-interactive method for teaching noun and verb meanings to young children with ASD	$59,986	Boston University
Hybrid social communication intervention for children with ASD: Sibling mediation and video modeling	$59,998	Portland State University
Pocket Potty Program - Toilet training for children with developmental disabilities	$74,730	The Sandbox Learning Company
Assessing interactive avatars for use with children with autism	$76,800	Carnegie Mellon University
Prosodic and pragmatic training in highly verbal children with autism	$100,000	Harvard University
A novel adaptive transactional virtual reality-based assistive technology for autism intervention	$104,814	Vanderbilt University
SBIR Phase I: A consumer robot designed to help children with autism spectrum disorders practice critical social skills	$146,639	Interbots LLC
Virtual Environment for Social Information Processing (VESIP) Phase II	$163,841	Soar Technology, Inc..
Developing a novel treatment for restricted inflexible behavior	$178,061	University of Florida
Adapting cognitive enhancement therapy for ASD	$213,586	University of Pittsburgh
Building a selective inhibitory control tone in autism: An rTMS study	$219,780	University of Louisville
Development of an executive function-based intervention for ASD	$255,420	Children's Research Institute
Wireless EEG system for training attention and eye movement in ASD	$271,250	University of California, San Diego
Phase 2: Animated Visual Support for Social Support (AViSSS); An interactive virtual experience for social skill development	$299,411	University Of Kansas Center For Research, Inc. -- Sped - Special Education Educ Education Administration - Sped - Special Education Educ Education Administration
Robot child interactions as an intervention tool for children with autism	$341,773	University of Connecticut
Delayed motor learning in autism	$356,598	Brandeis University
Adaptive response technology for autism spectrum disorders intervention	$371,470	Vanderbilt University Medical Center

Project Title	Funding	Institution
Treatment of Autism Symptoms in Children (TASC): Initial RCT with active control	$385,000	University of California, Los Angeles
